

KPRisk

At KPR we are pleased to provide a range of services that will assist you from minimizing the risk of a 'good looking' prospective, or even a long-term customer relationship from turning sour.

The KPRisk service is your quick and easy solution to accessing informative reports to determine the level of provision of credit to your customer. In the current economic climate you need to manage your risk... or it may cost your business more than the price of a search.

KPRisk is your portal to a safer, risk limited and informed business.

KPRiskcheck

We will conduct a credit bureau search and provide a recommendation to you. This may include whether it is an acceptable risk to conduct business with them, if their requested credit limit is acceptable, or if your new customer needs to start on a COD basis to build trust. Remember, a company's past trading history can often be a reflection of their future trading history, and vice versa.

KPReference

Your customer's current suppliers can provide valuable information as to their payment history. Send in three (3) references for KPR to contact, saving you time to concentrate on your real credit management issues. We provide you with a turnaround time of 24 hours.

KPReferral

If your customer has exceeded your trading terms, you can make a strong statement to them, and to other potential customers in your industry about your trading terms by referring a Credit Default to the Credit Bureau. This may stay on their credit file for up to 5 years. This will not only affect their ability to deal further with banks, finance companies and suppliers, but will mean that if they want it removed, they will need to pay your debt out. With a direct link to Veda Advantage, we can have this information listed within 24 hours.

KPRisk Alert

We can preload all of your customers, (or a select few) and you can have almost instant information about any change in your customers' details – be it through the Credit Bureau or ASIC register. For example, it would be beneficial to know if the director who has signed your director's guarantee suddenly resigns. With a maximum turnaround time of 24 hours, this is the perfect solution to receiving any adverse information about your customer, other than the dreaded liquidator report.

Our other services are; International Credit reports, Trade Reports, Risk Reports (In Depth) – these are priced on application, and can be tailored to your specific requirements.

Enquire with us today, as a reseller of Australian Business Research (Veda), we pass the savings onto you.
